

Standard Features

The B.6 table is available with two top options: a 1/2" (12.7mm) leaded glass top with a polished flat edge; or a 1" (25.4mm) lightly figured anigre top with a flat edge. The table frame is constructed of 1 1/2" (38mm) wide, 3/8" (10mm) thick, nickel-plated steel with a brushed finish and a protective clear coat. Urethane bumpers protect the glass and prevent movement.

The B.6 glass top table is GREENGUARD Certified.

The dimensions listed for the table height are for the wood tops only. When glass tops are specified, the table height decreases by 1/2" (12.7mm).

The B.6 table is sold as one unit.

Finish Selection

When specifying light finishes such as 836, 840, and 850 the color and characteristic variances of both veneer and solid wood are apparent. Therefore, exact color matches are not possible.
