

Zip Seating System Specification Guide

Zip is a modular seating product comprised of single and corner seat modules which may be used interchangeably to create different configurations. To select the modules that are appropriate for your application use the guide below. Zippers on the sides interlock pieces to create expandable modular configurations.

Zip is fully upholstered with flange stitch detailing and handles attached to the back. Handles are available in black or brown belting leather, fabric, leather alternatives and leather. Non-slip fabric applied to bottom. When ordering

multi-item configurations, please provide the total COM yardage from the same dye lot in a continuous roll(s). *All **COM/COL** fabrics must be preapproved by Bernhardt Design prior to application. See terms and conditions for instructions on tagging COM.

Please visit Bernhardtdesign.com for a complete library of 2D, 3D and Revit models. You may also contact your local sales representative or the Bernhardt Design corporate office for specification assistance. Approved for GSA. Contract GS-27F-010GA. Level 1 and GREENGUARD Certified.
